how to make the points nice and sharp. MACHINE PIECE
Look at my website or book for examples.

MATERIALS LIST:

You will choose your own project so it is hard to say how much fabric. More fabric is wonderful, but at **least** 2 yds background fabric of solid or non-directional print in either dark or light values. Avoid mediums for background. Dark backgrounds are particularly dramatic but light values are effective as well.

1/4 yd of 6 to 8 fabrics for a **single** large star, chosen to contrast with the value and color of the background. Small to medium size prints work easily, but stripes, checks and plaids are dramatic and exciting in the star points.

SUPPLIES:

Matching thread (star value), pins. Fabric and paper scissors.
Rotary cutter/ruler/board Portable light, multi-plug extension cord with surge protection, sheet to cover your work at night.
3 yds freezer paper - also available in class for a small fee
Drafting materials 1/4" graph paper 8-1/2"x11", 18" C-through ruler with holes -optional, compass, protractor, sharp regular pencils and two colored pencils.
SEWING MACHINE IRON and pad. (Small low wattage irons are good). **Not the tiny Clover.**
